Lexmark models supported by Print Director Integrated

These Lexmark models can run the Print Director embedded app (Print Director Integrated). Each printer uses one embedded licence: a full **Embedded Controller** licence, or a **Mini Embedded Controller** licence for the smaller models. Resource Manager works out which one a printer needs from its model name.

If a model is not listed, ask your Print Director partner. Most model names below stand for a whole series, for example *MX610 Series*. Each list also shows the app version its models need (see Which app version to choose).

Models without the embedded app

Lexmark designates these as *limited solution* devices, and does not allow third party embedded apps on them. Print Director can still track their printing through their print queues, but copying cannot be controlled or recorded, and users do not log in at the panel.

- MX421ade, MX521ade, MX521de, MX431
- XM1242, XM1342
- XC2326

Single function printers that do not support embedded apps, such as the M1140, are tracked the same way.

Models that use a full embedded licence

Oldest models (app version 2.3.0)

- X651de, X652de, XS651, XS652
- X654de, X656de, XS654, XS656
- X658de, XS658
- X738de, X736de, X734de, X738dte, XS734, XS736, XS738
- X860de, X862de, X862dte, X864de, X864dhe, XS860, XS862, XS864

Older X models (app version 2.2.0)

- X746de, X748de, X748dte, XS748
- X792de, X792dte, XS795, XS796, XS798
- X925de, XS925
- X950de, X952de, X952dte, X954de, X954dhe, XS950, XS955
- X548dte, XS548
- 6500e

MX and XM models (app version v2.5.1)

- MX610 Series, MX611 Series, XM3150
- MX710 Series, XM5163
- MX711 Series, XM5170
- MX810 Series, XM7155, XM7155X, XM7163, XM7163X, XM7170, XM7170X
- MX910de, MX911dte, MX912dxe, XM9145, XM9155, XM9165
- MX6500e Series

Newer models (Latest)

- CX92x Series, XC92xx Series
- CX820 Series, XC6100 Series
- CX825 Series, XC8100 Series, CX860 Series
- CX725 Series, XC4100 Series
- MX622ade, MX622adhe, XM3250
- MX720 Series, XM5370, XM5365
- MX820 Series, XM7355, XM7370
- CX625 Series, XC4240

Current models (Latest)

- XC4342, CX730de
- XC4352, CX735adhe
- XC94xx, CX94x
- XC93xx, CX93x
- CX963x, XC9655
- CX95x, XC9525, XC9535
- CX83x, XC8355
- CX961x, XC9635, CX962x, XC9645
- MX931x
- XM3350, MX63x
- CX635
- MX532
- MX95x

Models that use a mini embedded licence

Oldest models (app version 2.3.0)

- X466dwe, X466dte, X466de, X464de, X463de, XS463, XS464, XS466
- T656, TS656

Older models (app version v2.5.1)

- MS610de, MS610dte, M3150
- MS810de, M5155, M5163
- MS812de, M5170
- MS911de, M9155
- CS510de, CS510dte, CS511, C2132
- MX410 Series, MX51x, XM114x, CX410 Series
- CX510 Series, XC2132, XC2130

Newer and current models (Latest)

- CS820 Series, C6100 Series
- CS720 Series, CS725 Series, C4100 Series
- XM1246, MX522adhe
- M3250
- CX522 Series, CX622 Series, XC2235
- M5270, MS822de, MS826de
- C22xx, CS62x
- C4342, CS730de
- C4352, CS735de
- CS96x, CS94x
- M3350, MS632dwe
- CX53x, XC2335
- XM3142, MX432adwe
- CS63x

Which app version to choose

Resource Manager installs the latest Print Director app (version 3.0.2) unless you choose an earlier one. Choose the version shown with the printer's model in the lists above: on the shared device's **Controller** page, open the **Initialisation** tab and choose it in **Use app version** before you initialise.

Models	Use app version
Newer and current models	**Latest**
MX and XM models, and the older mini licence models	**v2.5.1**
Older X models	2.2.0, not in Resource Manager
Oldest models	2.3.0, not in Resource Manager

Resource Manager cannot install versions 2.2.0 and 2.3.0. To set up one of these older printers, ask your Print Director partner for the app file, and install it from the printer's web interface (see *How to set up Print Director on a Lexmark printer*).

If initialising fails with *InternalServerError*, the printer does not support the chosen version.
